

*A Healthy Heart
For A
Healthy Life*

Hardening of the Arteries increases the risk of Heart Attack.

Early detection can help reduce the risk.

February 16th through March 13th,
The Greenbrier Clinic is offering two
Cardiac Scoring CT scans for the price of one.

Learn your Heart Health Score and
give the gift of Heart Health to someone you love.
No extra charge.

The scan is quick, painless, and non-invasive.
Many physicians recommend it for patients over 50
who smoke, are obese, physically inactive, diabetic, have high blood pressure
or high cholesterol.

The more we know about our health,
the healthier we can become.
Call 304-536-4870 ext 253.
